

# FROM MVP TO PRODUCT READY

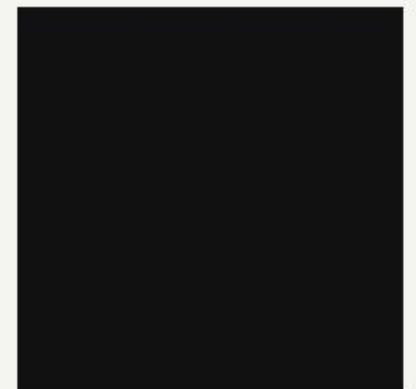

Navigate the transition with these 4 essential steps.

1.

## Gather Valuable Feedback

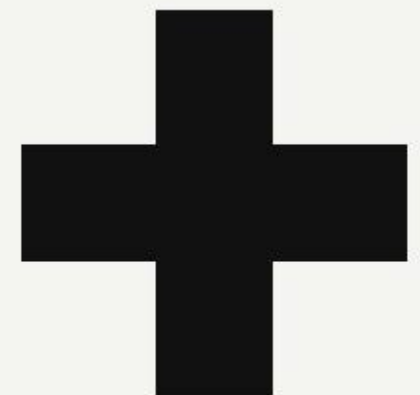

Engage with users to collect insights and understand necessary improvements.

## 2.

# Prioritize & Plan

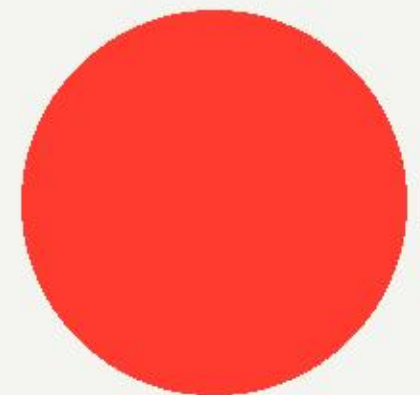

Focus on features that add value and align with your long-term vision.

# 3.

## Build for Scalability

Ensure your infrastructure supports growth and increased demand.

## 4.

# Streamline Updates

Implement CI/CD for efficient testing and deployment.
