

# FROM MVP TO PRODUCT READY

Learn the 4 essential steps to transition smoothly.

01

# **Step**

## **1: Gather User Feedback**

Collect insights from users about their experiences and challenges with your MVP.

**02**

# **Step**

## **2: Prioritize Features**

Focus on the features that add the most value based on user feedback.

**03**

# **Step**

## **3: Build a Scalable Infrastructure**

Ensure your product can handle growth by optimizing architecture and technology.

**04**

# **Step 4: Implement CI/CD**

Streamline updates and maintain stability by adopting CI/CD practices.  
Comment 'READY' for more insights.
