

FROM MVP TO PRODUCT READY

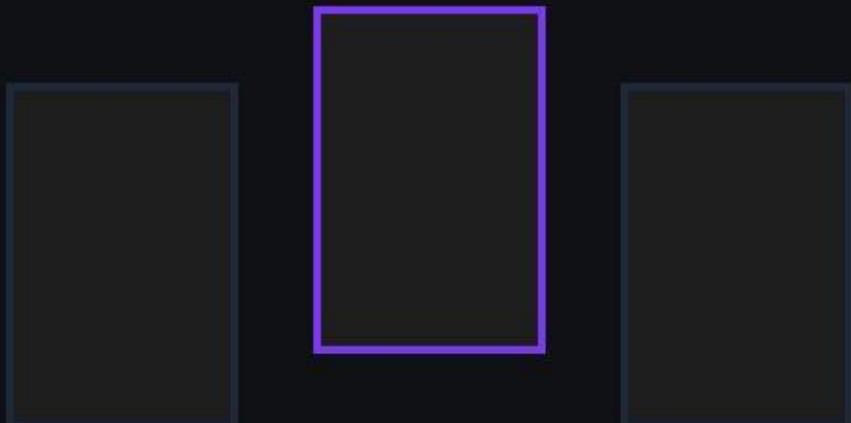

Learn the 4 essential steps to transition
smoothly.

01

Step 1: Gather User Feedback

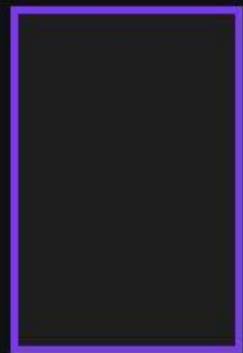

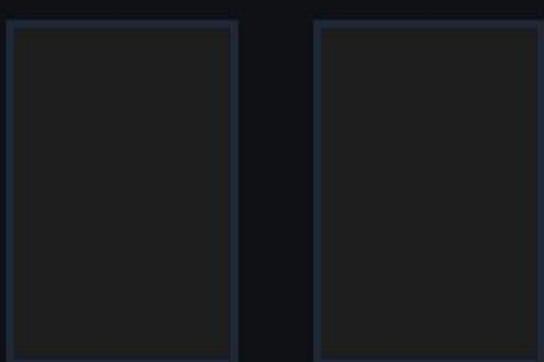

Collect insights from users about their experiences and challenges with your MVP.

02

Step 2: Prioritize Features

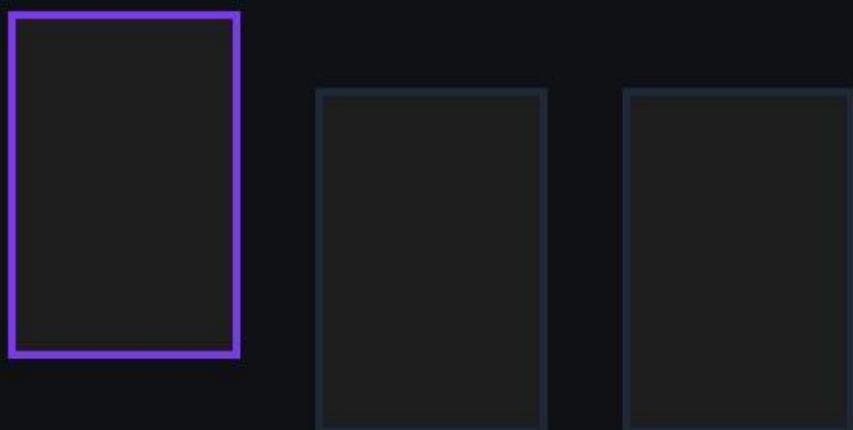

Focus on the features that add the most value based on user feedback.

03

Step 3: Build a Scalable Infrastructure

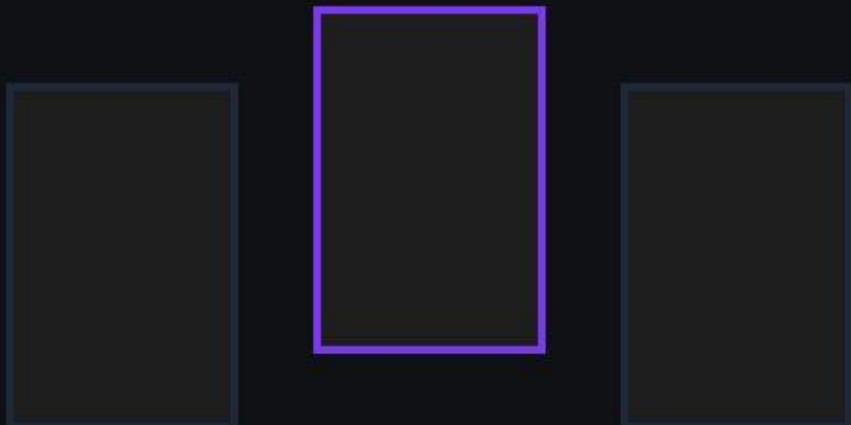

Ensure your product can handle growth by optimizing architecture and technology.

04

Step 4: Implement CI/CD

Streamline updates and maintain stability by adopting CI/CD practices. Comment 'READY' for more insights.
